

# LEATHER GOODS & SHOE FINISHES

CERTIFIED WITH ISO 9001, ISO 14001 & ISO 45001 & REACH COMPLIANT

# PRODUCT RANGE

PRODUCT & DESCRIPTION	SALIENT FEATURE
<p><b>PORTOFINO FONDO CE 8800</b> Glossy finishing neutral base cream for leathers</p>	Easy application and polishability, satisfactory drying with natural gloss and accentuated leather grains, suitable for all types of leathers both dark and light in colors.
<p><b>PORTOFINO FONDO CE 8801</b> Glossy finishing black base cream for leather</p>	Easy application and polishability, satisfactory drying with natural gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>PORTOFINO FONDO CE 8802</b> Glossy finishing brown base cream for leathers</p>	Easy application and polishability, satisfactory drying with natural gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>PORTOFINO TOP 8900</b> Glossy finishing neutral top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers both dark and light in colors.
<p><b>PORTOFINO TOP 8901</b> Glossy finishing black top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>PORTOFINO TOP 8902</b> Glossy finishing brown top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>PORTOFINO TOP SS</b> Self shine finishing neutral cream for natural and synthetic leather</p>	Easy application and polishability, satisfactory drying with good gloss. It closes the leather pores and gives self shining high quality finish.
<p><b>PORTOFINO TOP SS 01</b> Self shine finishing black cream for natural and synthetic leather</p>	Easy application and polishability, satisfactory drying with good gloss. It closes the leather pores and gives self shining high quality finish.
<p><b>PORTOFINO TOP SS 02</b> Self shine finishing brown cream for natural and synthetic leather</p>	Easy application and polishability, satisfactory drying with good gloss. It closes the leather pores and gives self shining high quality finish.
<p><b>PORTOFINO SENSATIONAL DYE CREAM</b> Dyeing cream for leather shoes based on high selection of waxes and dyes. <i>*For details see Pg. 5</i></p>	Natural look with soft waxy effect, high dyeing strength, excellent coverage of open grain, excellent fastness and water spot resistance, easy application and spreadability, imparts natural shine with silky feel to the leather after polishing.
<p><b>PORTOFINO SUPER GREASE 1520</b> Natural oil based additive for nubuck &amp; greased leather</p>	Imparts uniformity, enhances color tone intensity, hides defects, gives greasy touch, can be applied by roller, brush, sponge etc.
<p><b>MATERA BASE 8000</b> Glossy finishing neutral base cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>MATERA BASE 8001</b> Glossy finishing black base cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.

## PRODUCT RANGE

PRODUCT & DESCRIPTION	SALIENT FEATURE
<p><b>MATERA BASE 8002</b> Glossy finishing brown base cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>MATERA TOP 8100</b> High glossy finishing neutral top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>MATERA TOP 8101</b> High glossy finishing black top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>MATERA TOP 8102</b> High glossy finishing brown top cream for leathers</p>	Easy application and polishability, satisfactory drying with excellent gloss and accentuated leather grains, suitable for all types of leathers.
<p><b>APPRETO TOP EN</b> Shiny aqueous appretto top finish in neutral</p>	Good covering, very thin film forming and shine, high resistance to water and cold crack, excellent depth and uniformity, luxurious leathery appearance, closes pores, easy application on all types of leathers.
<p><b>APPRETO TOP EB</b> Shiny aqueous appretto top finish in black color</p>	Good covering, very thin film forming and shine, high resistance to water and cold crack, excellent depth and uniformity, luxurious leathery appearance, closes pores, easy application on all types of leathers.
<p><b>APPRETO TOP MN</b> Shiny aqueous appretto top finish in neutral color</p>	Good covering and shine, high resistance to water and cold crack, excellent depth and uniformity, luxurious leathery appearance, closes pores, easy application on all types of leathers.
<p><b>APPRETO TOP MB</b> Shiny aqueous appretto top finish in black color</p>	Good covering and shine, high resistance to water and cold crack, excellent depth and uniformity, luxurious leathery appearance, closes pores, easy application on all types of leathers.
<p><b>DIRTANT C 4001</b> Water based cleansing dresser for all types of leathers and synthetic materials</p>	Cleans and renews the color, removes the adhesive residuals, possesses special degreasing additives.
<p><b>DIRTANT C 4002</b> Both water and solvent based cleansing dresser for all types of leathers and synthetic materials</p>	Highly concentrated solvent to remove adhesive residuals and works on difficult stains.
<p><b>DIRTANT C 4003</b> Surfactant based cleansing dresser for all types of leathers and synthetic materials</p>	Cleans and renews the color, removes the adhesive residuals, possesses special degreasing additives.
<p><b>DIRTANT C 4006</b> Solvent based cleansing dresser for all types of leathers and synthetic materials</p>	Cleans and renews the color, removes the adhesive residuals, possesses special degreasing additives.

# PRODUCT RANGE

PRODUCT & DESCRIPTION	SALIENT FEATURE
<b>DIRTANT C 4008</b> Cleaner	Cleans & renews the color. Specially designed for removing white pencil marking.
<b>DIRTANT P 7004</b> Penetrator cum diluent	As penetrator for different types of leathers.
<b>DIRTANT P 7006</b> Penetrator cum diluent	As penetrator for different types of leathers and diluent for volcanos.
<b>LEVELLER T 8095</b> High molecular weight silicone based touch modifier for all type of leathers	Warm waxy silky touch, maintains natural look and optics specially for nubuck and suede leathers.
<b>F EDGE LACQUER 8500</b> Aqueous polyurethanes based neutral edge filler	Filler with light matt effect, very good fastness, high flexibility, good cold crack resistance, gives rubber and rounded effect on the edge, special water base product with the rubber effect for the edges of bags, belts and wallets with high recoatability.
<b>F EDGE LACQUER 8501</b> Aqueous polyurethane based filler for belts & bags. Neutral color	Light transparent matt. Capacity to fill the surface of the belt. Having good flexibility, fastness and cold crack resistance.
<b>F EDGE LACQUER 8550</b> Aqueous polyurethane based filler for belts & bags edge. Neutral color	It gives high shine, very good fastness, flexibility and cold crack resistance. It gives rubber and rounded effect on leather. It is having very good recoatability.
<b>T EDGE LACQUER 8502</b> Aqueous polyurethane based filler for belts & bags. Black color	Light transparent matt. Capacity to fill the surface of the belt. Having good flexibility, fastness and cold crack resistance.
<b>T EDGE LACQUER 8509</b> Aqueous polyurethanes based edge ink black	Filler with light matt effect, very good fastness, high flexibility, good cold crack resistance, gives rubber and rounded effect on the edge, special water base product with the rubber effect for the edges of bags, belts and wallets with high recoatability.
<b>T EDGE LACQUER S 8510</b> Aqueous polyurethane top shine edge ink for belts & bags. Black color	It gives high shine, very good fastness, flexibility and cold crack resistance. it gives rubber and rounded effect on leather. It is having very good recoatability.
<b>TN EDGE LACQUER 8600</b> Aqueous polyurethanes based neutral edge top for belts & bags, suitable for developing different edge colors with pigmentol N series	Top neutral with light matt effect, very good fastness, high flexibility, good cold crack resistance, gives rubber and rounded effect on the edge, special water base product with the rubber effect for the edges of bags, belts and wallets with high recoatability.

## PRODUCT RANGE

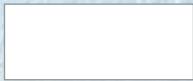

PRODUCT & DESCRIPTION	SALIENT FEATURE
<p><b>BAR NAUBA</b> Carnauba wax based poishing bar</p>	Natural shine & transparency, smooth silky touch.
<p><b>BAR BURN</b> Wax bar based on high selection of natural waxes</p>	Natural shine with burnishing effect, smooth silky touch
<p><b>BAR ABRA</b> Filler &amp; abrasive bar</p>	Uniform filling, requisite abrasion & cutting. Smooth touch.
<p><b>BAR NAUBA BLACK</b> Carnauba wax based poishing bar in black color</p>	Natural shine & transparency, smooth silky touch
<p><b>CROWNLAC GHS 7341</b> High concentrated lacquer</p>	Very high shine, smooth touch.
<p><b>CROWNLAC GHS 7401</b> Very high concentrated &amp; very high shine lacquer</p>	Vey high shine and smooth touch, very high fixing.
<p><b>CROWNLAC MSW 7241</b> High concentrated matt lacquer</p>	Very high matt, both solvent & water soluble, smooth touch.
<p><b>C MOD 7001</b> High molecular weight silicone based touch modifier for all type of leather</p>	Long lasting worm & silky touch. Specially designed for nubuk & suede leather.
<p><b>C MOD 7002</b> High molecular weight silicone based touch modifier for all type of leather</p>	Long lasting worm & silky touch. Specially designed for nubuk & suede leather.
<p><b>VOLCANO</b> Monocomponent transparent varnish to dye <i>*For details see Pg. 7</i></p>	High tinctorial strength, imparts aniline effect, fast drying character.
<p><b>ANILENA</b> Concentrated anionic metal complex dye solution <i>*For details see Pg. 8</i></p>	High color intensity & uniformity, high brilliancy & depth, convinient toning and matching, intercompatibility of all colors, high resistance to heat, light, water spotting.
<p><b>CATALENA</b> Concentrated cationic dye solution <i>*For details see Pg. 9</i></p>	High color intensity & uniformity, high brilliancy & depth, convinient toning and matching, refresh for nubuck and suede leathers.
<p><b>PIGMENTOL N</b> Nonionic casein free pigment dispersion in aqueous media <i>*For details see Pg. 10</i></p>	Excellent coloring power, finely ground & micronised particles, good covering & easy uniformity, excellent resistance to heat, light & pvc migration.

# Portofino

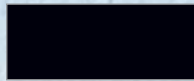

*Sensational dye cream. Dyeing finishing cream for leather.*

## **SALIENT CHARACTERISTICS**

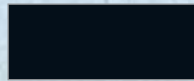

- ▶ Natural look with soft waxy effect
- ▶ High dyeing strength
- ▶ Excellent coverage of open grain
- ▶ Easy application and spreadability
- ▶ Excellent fastness and water spot resistance
- ▶ Imparts natural shine with silky feel to the leather after polishing
